Sub: Frequent Power Interruption and Voltage fluctuation at Chopadva

Dear Sir,

The industries located in and around Chopadava have drawn our attention towards frequent power interruption and voltage fluctuation particularly in these days of present high velocity wind and day by day increase of moisture content in atmosphere.

In view of the above, we request to expedite the project work of the establishment of new sub-station at Chopadava. We also suggest to make arrangement of extra feeder or separate 11KV line for the industries at Chopadava.

Out of the abundant cautions, we request to take up this pending issue on top most priority basis in light of forthcoming monsoon season in particular.

Hope, due consideration will be given to our submission and keep us updated about the progress made in this regard to enable us to keep inform our members accordingly.

Thanking you.

Yours faithfully,

Murlidhar Jagani
Hon. Secretary
